01

In person, at your premises or our offices in Cheltenham.. Online courses available.

02

3 day course with FREE parking and lunch included.

03

End of course exam challenges candidates to apply their knowledge in real-world scenarios.

## About us

Based in Cheltenham, Original Education is the UK's only GPM™ ATP (Authorised Training Partner), specialising in Green Project Management. We offer the GPM-b™ certification through both in-person classroom courses and online virtual courses, aligning with the world-renowned P5 standard and PRiSM™ methodology.

Our mission is to elevate professionals in Sustainable Project Management, providing a pathway for those in various industries to advance their careers and contribute to a sustainable future. Join us in making a difference.

GPM Global is at the forefront of Green Project Management, creating international standards like the GPM-b™ Certification, P5 Standard, and PRISM™ methodology. Aligned with the UN Sustainable Development Goals, their initiatives drive sustainability across industries in over 145 countries, embodying a commitment to ethical practices and global impact.

# Sustainable Success for your Team

## Align, Innovate, and Lead with GPM-b™

### Alignment with United Nations SDGs

Our course integrates the principles of the UN SDGs, enabling your team to contribute to global sustainability targets while enhancing your organisation's social responsibility profile.

### Competitive Edge & Tangible Outcomes

By investing in the GPM-b™ Certification, you position your organisation at the forefront of sustainability, delivering tangible business outputs that set you apart in today's competitive market.

### Real World Application

Our course emphasises practical skills, enabling your staff to apply sustainable practices to your projects immediately, resulting in outcomes that resonate with stakeholders and align with ethical considerations.

### Investment in Success

The GPM-b™ Certification is an investment in your team's professional development and your organisation's long-term success. By fostering a culture of sustainability, you not only contribute to global responsibility but also enhance your brand's image, market positioning, and bottom line.

# The Future is Original

Original Education, a trading division of Original Consultants Ltd, specialises in Digital Transformation and technology regeneration.

We utilise the GPM-b™ framework in all our projects, reflecting our commitment to sustainability. To further this mission, we offer GPM-b™ courses to our customers and any organisation seeking to advance in green project management
